*His **Son's-Younus Khan, Ayub Khan & Sameer Khan** the A.K. Engineering Company had explored in all the sectors in Hyderabad and has achieved several significant milestones. They Plays vital role as brothers with their Vision and mission the AK Engineering Company had reached to a premier level. On at par with any major player in the industry.*

Their visualization has today elevated the company to the phenomenal level which is at par with all the multinational brand products and other huge units in this industry sector. Our management team has ensured a dedicated skilled manpower which is the backbone for any Industry.

AK Engineering has earned its place in the market by fulfilling the commitments on time. This had been possible by Up-Lifting the manufacturing facilities with all the most advanced machineries coupled with sound technological setup.

As we met the Customer expectation and their requirements with follow up helped us in developing new requirements to suit the customer's need and modifying the existing ones as per the customer and market requirement.

All these investments in modern facilities from time to time have helped in exponential growth in turnover. Delivery schedules are maintained with impeccable quality and up to date installations, which ensures desired performance for many years to come prompt after sales service is the back bone for any company.

*A.K. Engineering today is meeting on enviable position with ever-expanding their own manufacturing facilities, sales& Services network, and technological tie up with Key foreign partners like **Celfrost – (USA based company)** coupled with market reputation. We are confident of fulfilling any type of requirement of our customers, and deliver functional solution to them for running their food service business with ease.*
